

ProBridge *Flex*

More Skills. More Flexibility. One Predictable Cost.

When multiple projects are competing for attention – and budgets are tight – you need a solution that delivers maximum value without adding headcount. ProBridge Flex is a bundled services model that gives you flexible access to multiple specialized experts for less than the cost of a single full-time employee. With Flex, you can tap into the strength of up to four part-time experts – under one contract, at one consistent monthly cost.

What Is ProBridge *Flex*?

Flex provides access to a rotating team of two to four specialized resources who support your maintenance, compliance and project needs over a defined contract term. This model lets you right-size expertise to your actual workload, avoiding the cost and complexity of hiring full-time roles you don't need year-round.

How It Works

-  **Customized Resource Plan** A tailored plan is built around two to four resources that will partner with your credit union on a rotating schedule for the duration of the contract
-  **Flexible Contract Terms** Contract duration: Six months to multi-year
-  **Rotational Resource Model** Experts rotate in predefined intervals (weekly or monthly), each with a guaranteed minimum commitment. **Example:** Month 1–2: Cloud Architect; Month 3: DBA; Month 4-6: Software Engineer.
-  **Dedicated Engagement Manager** An engagement manager partners with you to coordinate resources, manage assignments and ensure satisfaction with the work delivered.

What Skills Can You Access?

Flex gives you **secure access** to a **wide range of expertise** through one engagement, including:

- Core system experts
- Software engineers
- Database administrators (DBAs)
- Cloud architects
- Data engineers
- Compliance and maintenance specialists
- Additional skill sets available based on need

Why Credit Unions Choose **Flex**

- **Reduce staffing** costs by tapping multiple specialties for the cost of one FTE
- **Eliminate recruiting** and onboarding overhead
- **Scale technical capacity** up or down based on demand
- **Increase project velocity** with specialists available when you need them

ProBridge **Flex**

Secure multiple skillsets. One engagement. One predictable cost.
